Sir

Sub.: Report on the Jatre in Dabaguli and KANS Initiative to contain pollution

Kenneth Anderson Nature Society (KANS) is a registered NGO striving to help conserve the forest region known as Melagiri Hills located in the Hosur Forest Division in Tamil Nadu, India.

KANS had noticed a lot of litter in the forest at Dabaguli in Urigam Range in 2010. Upon enquiry with the locals, we had found out that a Jatre happens in the temple there around the time of Sivarathi.

This year, the Jatre was held on the 5th and 6th of February, 2011. With the permission of the DFO, Hosur Forest Division, KANS made an attempt to assess the extent of the damage done to the ecosystem in Dabaguli and to limit pollution. The attached report has details on all the activities done by KANS at Dabaguli to contain pollution and create awareness. It also lists major observations and concerns regarding this issue.

We request you to kindly go through the report and take necessary action. We will be happy to provide further information if required, in this regard.

Sincerely yours
Sanjeev Kumar S. R.
